It is proposed to purchase 10,000 little trees to be used in the reforestation project at the Orange reservoir, at Hopsa cemetery on land owned by the city, and in Jackson park. Customarily, seedlings of this kind are purchased from the state, but it is stated that the Randolph district, who plans to dispose of 2,000,000 seedlings in a year in order to use his land for other purposes, is in a position to give the city very attractive prices on a quantity of the little trees. If the seedlings are purchased in Randolph they will be brought to Barre by auto truck.

## Notice to Public.

Owing to the advance in cost of raw materials we are compelled to increase prices on sodas in order to keep up the quality of our goods, which will be 10 cents more on a case beginning May 8, except Hires and Orangeade. Low prices means cheap goods. The public, knowing nothing of costs, continue to buy from dealers who think more of their customers' health and safety, will continue to buy the cheapest sodas they can get and as they all charge the same price, the consumers' only safety is to trade only with dealers who supply the goods bearing our trade mark on the label. F. W. Langlois, 34 Granite street.
